

HVAC Technician:

We are seeking HVAC Technicians to undertake the responsibility to preserve the right condition and functionality of Heating and Air systems. You will perform maintenance tasks of great variety, such as seasonal tune-ups, repairs, warranties, and assist with other installations or services.

A Technician is a thorough professional with a practical mind and attention to detail. The ideal candidate will be able to work autonomously and responsibly by observing all health and safety guidelines. The goal is to provide excellent customer service while performing all duties and bringing a professional attitude to every job. We offer ongoing training for our technicians with opportunities to grow within the organization.

Benefits

- Health insurance (company pays half), dental, vision, life, and Aflac available after 90 days
- 401k with up to 4.5% matching after one year
- 7 National Holidays paid days off
- On the job training and ability for advancement.
- Paid Vacation

Responsibilities

- Survey systems and repair HVAC systems to ensure they are consistent with health and safety standards
- Assist in the setup of ventilation, other systems, and conduct repairs when necessary
- Maintain heating and cooling systems to ensure the functionality
- Inspect filters and schedule repairs when needed
- Perform manual repairs when needed.
- Learn company policies and benefits available to customers and be able to explain this information to the customers adequately.
- Suggest possible improvements to customers to extend the life of their units such as UV lights, Service Agreements, ETC.

Job Type: Full-time
